

Gas Flow Solutions (GFS) develops, manufactures and supplies control equipment for the energy sector worldwide. The products of GFS can be found in almost every continent because of the international character of the gas- and energy sector. We are an ambitious growing company located in Dessel. Because we value a pleasant work atmosphere and job satisfaction, we believe in investing strongly in the knowledge and development opportunities of our employees. Curious to find out more? Do not hesitate to visit our website: www.gfs.be.

Technical Purchaser (m/f)

Job function

As a technical purchaser you are responsible for an efficient stock management of the raw and machined materials. You are the first line of contact for our suppliers and report directly to our Procurement & Supply Chain Director. The entire purchase procedure from request to delivery will be managed and followed up by you. Additionally, you are proactive, a problem solver and business-oriented who is able to support your colleagues with any complaints, quality or invoice issues.

Profile

- You have strong communication skills and are pleasant to work with.
- Good negotiation skills are very much of added value.
- Keen interest in engineering and materials.
- You have a great attention to detail and maintain an accurate administration.
- You are collegial and work in a customer-oriented way.
- Very good knowledge of Dutch and English is required. German, Polish or other languages are a plus.

Offer

- A challenging and exciting work environment located in Dessel, North-East of Belgium, close to the Netherlands.
- A full-time position of 40 hours/week with 12 “ADV”-days above your annual leave
- An attractive salary package depending on your experience
- An all-round job function with designated responsibilities
- A balanced and people-oriented organization
- Room for talent development with a wide range of education and training opportunities.
